

Consult the installation manual for more details on drilling holes for assembly.

MINI TOUCH

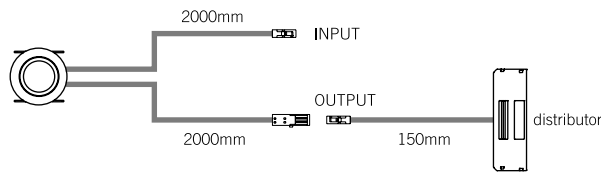

dimmable touch switch

Code	Input	Output	Power	Connectors	Finish
1772810	24Vdc	24Vdc	36W	Micro24	aluminium

Turn on or off simply with a quick touch. The brightness is adjusted with a long touch (dimmer function) and is then stored until the next adjustment (memory function).

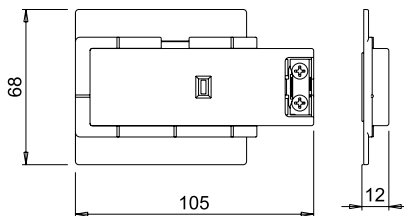

STM

smart touch mirror

Code	Input	Output	Power	Connectors
1773501	220-240Vac	24Vdc	2x60W	Micro24
1773601	220-240Vac	24Vdc	60W	MOS - TW

POWER SUPPLY INCLUDED.

STM (smart touch mirror) is a programmable electronic touch switch for installation behind mirrors. **STM** is always supplied wired with a Domus Line power supply with IP44 protection degree. **STM** can power and control both 24Vdc static light LED luminaires or dynamic light Tunable White luminaires.
