Domus Line Tunable White (TW) luminaires include Twin LED technology. LED strips are developed with pairs of light emitting diodes which allow dynamic adjustment or static selection of colour temperature, in a scale of tones from warm white (WW) and cool white (CW) to natural white (NW).

FLEXYLED TW CR can be controlled via touch or wireless adjuster systems. For information about these accessories, please see the catalogue **Tunable White & White Changeable Collection** at www.domusline.com.
