USB standard	2x type A
Wiring	200mm Micro24 male

24Vdc

CONVERTER NOT INCLUDED. TO BE ORDERED SEPARATELY.

* Spacer for surface installation also separately sold.

SUBBY

Module with double USB port

SUBBY integrates two 5 V type A USB sockets with smart recognition for fast charging and is compatible with smartphones, tablets, game consoles, MP3 players, cameras, etc. It can recharge two devices simultaneously, even different from each other.

The maximum load is 20W for fast charging a single device up to 4000 mA or two up to 2000 mA. The charging time depends on the technical characteristics released by the device's producer. Supplied with 2000 mm power cord and Micro24 male connector, SUBBY has been developed for recessed installation in Ø46mm hole or on the surface thanks to the spacer, also separately sold. Available black touch and steel painted finishes.
