

EASi DISK

self-powered radio control

Code	F0126000008
-------------	-------------

EASi is supplied with a support that can be fastened to the wall. The base integrates a magnet that easily houses the radio control.

The EASi DISK battery compartment holds the two AAA alkaline-Mn mini batteries supplied in the package.

EASi DISK

D-Motion luminaire control system

EASi DISK is a radio control for EASi DRIVER power supplies (supplied separately). EASi DISK has five function keys: Control module On-Off, group selectors, brightness and light colour selectors with “forward” and “rewind” modes. EASi integrates a luminous ring synchronised with the radio control selectors. EASi DISK may control the same group of luminaires in combination with other radio controls (up to a maximum of seven). Supplied with two batteries and a magnetic support for wall mounting.
