GOLY

GOLY is a collection of under-worktop and drawer/deep-drawer profiles that integrate an innovative lighting and control system, making it easy to create linear lighting solutions “to the millimetre” for installation beneath kitchen worktops or between drawer units and deep drawers.

GOLY consists of extruded aluminium profiles – SCILM 8070 model – available in melamine, unfinished veneer, natural anodised aluminium, anodised or painted finishes, integrating the FLEXYLED DUAL PRO dual colour D-Motion light source. Thanks to two types of corner elements, 90° internal and 90° external, GOLY can be configured for installation in standard kitchens against a wall as well as on islands. End caps or closing caps, the power cable and the end-stop optical sensor complete the system and can be installed without the use of any tools.

DOMUS LINE | scilm

The installation of the power cable and sensors is “free”, meaning they can be positioned at any point along the profile. The sensors, installed behind the door on each base unit carcass, ensure that the light switches on instantly when any door is opened and switches off once all compartments have been closed.

**Warranty**

Each unit is fully guaranteed for a period of 24 months from the date of delivery. From the warranty are excluded all defects caused by force majeure (lightning, fire, etc..), as well as any damage caused by improper use of equipment. The products must be installed and/or used in accordance with the specifications and instructions given by Domus Line Srl. They must also be installed and/or used in compliance with the provisions governing the installation and/or use of electric material force in the country where the products are installed and/or used. To this end, the buyer expressly releases Domus Line Srl from any responsibility for improper use, failure to comply with safety standards, technical specifications and instructions for use. The products which do not meet the standards and/or specifications in force in the European Union, will only be provided to the buyer that in the order specifies that the destination country does not belong to the European Union and indicating to have exhausted all the controls on compatibility of safety standards in force in the country outside the EU for which they are intended. In the absence of other arrangements for testing of the equipment, the standards established by the CEI (Italian Electrotechnical Committee) are valid. The warranty is void without fail in the event of tampering with the equipment by persons or technicians not specifically authorized by Domus Line Srl. The warranty does not cover normal wear and tear or the consequences of improper installation, nor the failure and/or breaks caused by inexperience and/or neglect.
